Listen To What Others Say ...

Hi guys - I am just back from the course that Roger ran in Penang.

- I usually do not do public praise of courses that I attended and I am very very cautious on what products or services I support, but I can only say that the value we got during the 2 day course was absolutely amazing. And I am sharing this with you without any self interest or affiliate marketing deal etc... - I am sharing it because I am amazed...

I had never imagined that at the end of two days I would have been able to set up my own page with email squeeze and PayPal payment + weblog + html pages with videos...+++ and that all with the free tools we got and the references that Roger gave us for software download. It is actually a very empowering feeling.....

I am sharing this with you as it would be a loss if this course would not be able to benefit so many more GBI graduates in the future that might be wasting time trying to figure out how to do all of this by themselves.....

Roger - thanks for the amazing course - I want to acknowledge the great value you are giving!!!
